

U-Pick Guidance

1) Samples are encouraged in moderation please! 😊

2) ALL OF OUR FENCES ARE ELECTRIC AND ON! PLEASE DO NOT TOUCH THE FENCES. Please watch the tiny humans-it is very unpleasant if they touch the fences. ☹

3) Please limit your stay to the blueberry field and the picnic area in front of the farm stand. The rest of the farm and barns are not open for visiting.

4) The blueberries in the field to the east of the house are the U-pick field. Follow signage. The blueberries in the raised bed garden are not for sale.

5) We provide white buckets for you to pick into to help with weighing. The white bucket full holds a little over 6 pounds. When your bucket(s) is full, place it on the green scale by the farm store. **PLEASE DO NOT RESET THE SCALE: THE WEIGHT SHOWN IS BERRY WEIGHT ONLY.**

6) Please record your quantity (pounds of berries shown by scale) and keep a running balance of what you have picked on a Blueberry Customer Card, found on the table.

7) Transfer your picked berries into an appropriate sized container provided (or one of your own), return the white bucket to the stack, and tally your total on your Blueberry Customer Card.

8) We will provide a per pound cost on the Blueberry Customer Card. Please calculate your total and leave your Blueberry Customer Card and payment in the cash box located in the farm store. We appreciate your honesty in respecting our honor system.

9) You are welcome to purchase anything else in the farm stand that strikes you however, *if you are not a current milk customer, the milk in the farm store refrigerator is **NOT** for sale. Please leave your name and contact information if you are interested in becoming a milk customer-we would love to have you.* If you make a purchase, please fill out a purchase order form located on the payment table. Thank you for your business.
